

Mehmet Alperen YEDİK

Full Stack Web Developer

PROFESSIONAL SUMMARY

Solution-Oriented Full Stack Web Developer. A professional focused on developing scalable and value-added projects using modern technologies (ASP.NET Core, React.js, Next.js, Node.js). I have extensive experience in all phases of the software development process, prioritizing performance, user experience, and responsive architecture in my projects. I aim to leverage my technical expertise in business and technology intersection roles like **Product Owner**, with the goal of increasing my technological depth during this process.

WORK EXPERIENCE

- Eyl 2024 – Present **Full Stack Web Developer**, Şehir Teknolojileri Merkezi, Full-Time
- Architectural Leadership and Scaling:** Designed and deployed critical projects from scratch using ASP.NET Core and Next.js. Demonstrated seamless operational performance in backend projects managing data structures involving **over 80 tables**. **Technology Diversity and Depth:** Actively participated in maintenance, debugging, and new feature development using modern frameworks like ASP.NET Core, Node.js, React.js, and Next.js. Systematically integrated technologies such as **BigBlueButton**, **PostGIS**, **Redis**, and **RabbitMQ** into our projects, specifically leveraging PostGIS's **geographical functions** effectively. **Performance Optimization and Collaboration:** Collaborated with the team to produce sustainable and innovative solutions for software architecture. Achieved **up to 100% significant increases in site speed** through frontend optimizations, elevating user experience.
- Eyl 2023 – Şub 2025 **Full Stack Web Developer**, aivisiontech, Intern & Part-Time
- Corporate Website Development:** Developed the company's **dual-language, modern, and user-friendly corporate website from end-to-end**, ensuring mobile and desktop compatibility. Simultaneously applied responsive design principles to deliver a **fluid and performance-oriented** user experience across all devices. **Training Platform Infrastructure:** Designed and developed a **dedicated documentation site** for aivisiontech Academy, hosting technology and software education content.
- Şub 2023 – Eyl 2024 **Full Stack Web Developer**, Kapsül Teknoloji Platformu, Volunteer & Part-Time
- Transition to Software Leadership and Cultural Support:** Starting as a volunteer, I rapidly advanced to a **leader level in my field** due to my swift learning ability. This position served as a platform where my learning phase quickly translated into professional contribution. **Technology and Architectural Contribution:** **Pioneered the use of Next.js** within the company. Directly supported and contributed to the formation of filing standards, corporate identity, and general **software development culture**. **Operational Optimization:** Developed a system with touchscreen and barcode reader integration, **completely optimizing** attendance and event tracking processes. **Data Management System:** Developed a system capable of creating, editing dynamic forms, viewing results as tables, searching, and **generating PDF outputs**. Furthermore, I developed dual-language corporate websites in a modern architecture that is responsive and **enriched with animations**.
- Oca 2023 – Mar 2023 **Web Development Trainer**, Lise Medeniyet Akademisi, Part-Time
- Education and Mentorship:** Organized a comprehensive **10-week** web development training program (including HTML, CSS, JavaScript topics) for high school students. Throughout this process, I guided each student to practically **develop a personal website** and ensured that every student **left the program with a completed website**. This achievement boosted the students' confidence and technical competence.

EDUCATION

- 2021 – 2025 **Mechatronics Engineering**, Selçuk University, Faculty of Technology
- 2025 – Present **Management Information Systems**, Anadolu University, Open Education Faculty

LANGUAGES AND CERTIFICATES

- Languages Turkish (Native), English (B2 - Intermediate Level)
- Certificates Participation Certificate (Teknofest 2023), Participation Certificate (Media Technologies Hackathon 2024 - Anadolu Ajansı)
